

Paws 4 Effect and Pets Australia
Proudly Present:

Pet First Aid Course – Level 1.

Can You Save Your Pet's Life?

What is the NEW snakebite treatment for pets? The NEW CPR requirements? What do you do for seizure or heatstroke? If you are in pet business or a pet owner, you need to be at this course!

Pet First Aid is a short course for people that love and work with pets; the only Pet First Aid course in Australia taught by a veterinarian. **Bring your own dog** and join us in a day of fun, learning and networking!

The course includes. Lunch, a Certificate of Attendance, course notes & all training materials & focuses on 'real world' First Aid and other emergencies. It includes:

- Normal, abnormal and emergency – determining which is what and when not to panic
- Transport to hospital
- Pet breathing support and CPR
- Common first aid events – bleeding, cuts, bites, broken bones, breathing issues, poisonings, heat issues, eye & ear trauma, skin issues, bruising, dilatation, choking, etc
- What's so different about cats? Fish? Birds?
- The pet first aid kit

There is also time to discuss issues you are concerned about.

Many attendees already report that they have saved their pet after attending this course!
